

Child Protection and Safeguarding Policy and Procedures Updated October 2019

EQUALITIES STATEMENT

Kingsmeadow School is committed to equal opportunities for all and the policy will be applied equally to all members of the school community regardless of age; disability; gender reassignment; pregnancy and maternity; race; religion or belief; sex and sexual orientation.

We are committed to providing a calm, caring and well-ordered environment where everyone feels safe, happy and understands the expectations of attitudes to learning in order to create an ethos conducive to excellent learning and teaching for all.

We promote a culture of praise and encouragement and expect consistency of response to both positive and negative behaviour.

We believe that positive relationships based on mutual respect, promote positive attitudes to learning and that as students learn by example, all adults within the school should act as positive role models with regard to their own behaviour.

Equality Targets

Everyone at Kingsmeadow School must strive to accept and meet the differing needs and aspirations of all members of the school community, using human resources and skills available to us all to:-

1. Safeguard individuals from all forms of abuse and harassment. We must ensure that victims can be confident of support and, where appropriate redress. We must ensure that aggressors can never claim the excuse of acting out of ignorance.

Success Criteria

- Incidents of aggression and bullying are rare and dealt with effectively and outcome of which are recorded on our MIS (Management Information System).

2. Establish a school ethos built on mutual trust and respect. We should treat others as we would wish to be treated. We should respect other people, their property and school premises.

Success Criteria

- Students regularly receive merits and praise for their positive attitudes to learning, respect to others, their school campus and their local community.
- Incidents of disrespectful behaviour are rare and dealt with promptly and effectively and the outcome of which are recorded on our MIS..

3. Safeguard the rights and freedoms of others. We must actively pursue our aim to help students develop personal moral values which respect the values and tolerates differing religious and cultures.

Success Criteria

- Racist and homophobic incidents are extremely rare and dealt with promptly and effectively and the outcome of which are recorded on our MIS.
- Students display tolerance, support of and celebrate other cultures/religions through their work.

4. Develop an organisation which maximises pupil opportunity and experience. We must ensure that the curriculum and other activities encourages and supports the opportunity for all. We must ensure that students are not excluded from activities because of status or income.

Success Criteria

- All student groups are able to access the curriculum fully and discreet intervention results in specific gaps in student achievement narrowing and in line with the whole school population and national figures. E.g. boys, girls, students with SEND and students receiving free school meals.

Assistant DSL	Rachel Allan
Assistant DSL	Chris Byrne
Safeguarding Governor	Tracey Johnson

1. Aims

The school aims to ensure that:

- Appropriate action is taken in a timely manner to safeguard and promote children's welfare
- All staff are aware of their statutory responsibilities with respect to safeguarding
- Staff are properly trained in recognising and reporting safeguarding issues

2. Legislation and statutory guidance

This policy is based on the Department for Education's statutory guidance, [Keeping Children Safe in Education](#) and [Working Together to Safeguard Children](#), and the [Governance Handbook](#). We comply with this guidance and the procedures set out by our local safeguarding partners.

This policy is also based on the following legislation:

- [The Children Act 1989](#) (and [2004 amendment](#)), which provides a framework for the care and protection of children
- Section 5B(11) of the Female Genital Mutilation Act 2003, as inserted by section 74 of the [Serious Crime Act 2015](#), which places a statutory duty on teachers to report to the police where they discover that female genital mutilation (FGM) appears to have been carried out on a girl under 18
- [Statutory guidance on FGM](#), which sets out responsibilities with regards to safeguarding and supporting girls affected by FGM
- [The Rehabilitation of Offenders Act 1974](#), which outlines when people with criminal convictions can work with children
- Schedule 4 of the [Safeguarding Vulnerable Groups Act 2006](#), which defines what 'regulated activity' is in relation to children
- Statutory [guidance on the Prevent duty](#), which explains schools' duties under the Counter-Terrorism and Security Act 2015 with respect to protecting people from the risk of radicalisation and extremism

3. Definitions

Safeguarding and promoting the welfare of children means:

- Protecting children from maltreatment
- Preventing impairment of children's health or development
- Ensuring that children grow up in circumstances consistent with the provision of safe and effective care
- Taking action to enable all children to have the best outcomes

Child protection is part of this definition and refers to activities undertaken to prevent children suffering, or likely to suffer, significant harm.

Abuse is a form of maltreatment of a child, and may involve inflicting harm or failing to act to prevent harm. Appendix 1 explains the different types of abuse.

Neglect is a form of abuse and is the persistent failure to meet a child's basic physical and/or psychological needs, likely to result in the serious impairment of the child's health or development. Appendix 1 defines neglect in more detail.

Sexting - (also known as youth produced sexual imagery) is the sharing of sexual imagery (photos or videos) by children

Children includes everyone under the age of 18.

Safeguarding partners - previously known as LSCB and will include other external partners. They will make arrangements to work together to safeguard and promote the welfare of local children, including identifying and responding to their needs.

The Safeguarding Partners in Gateshead:

Gateshead Council

Newcastle Gateshead Clinical Commissioning Group

Northumbria Police

4. Equality statement

Some children have an increased risk of abuse, and additional barriers can exist for some children with respect to recognising or disclosing it. We are committed to anti-discriminatory practice and recognise children's diverse circumstances. We ensure that all children have the same protection, regardless of any barriers they may face.

We give special consideration to children who:

- Have special educational needs or disabilities
- Are young carers
- May experience discrimination due to their race, ethnicity, religion, gender identification or sexuality
- Have English as an additional language
- Are known to be living in difficult situations – for example, temporary accommodation or where there are issues such as substance abuse or domestic violence
- Are at risk of FGM, sexual exploitation, forced marriage, or radicalisation
- Are asylum seekers
- Are at risk due to either their own or a family member's mental health needs
- Are looked after or previously looked after

5. Roles and responsibilities

Safeguarding and child protection is **everyone's** responsibility. This policy applies to all staff, volunteers and governors in the school and is consistent with the procedures of our Safeguarding Team and our safeguarding partners. Our policy and procedures also apply to extended school and off-site activities.

5.1 All staff

All staff will read and understand part 1 of the Department for Education's statutory safeguarding guidance, [Keeping Children Safe in Education](#), and review this guidance at least annually. Staff will also be issued with a Kingsmeadow code of practice pocket guide and submit confirmation of receipt.

All staff will be aware of:

- Our systems which support safeguarding, including this child protection and safeguarding policy, the staff behaviour policy/code of conduct and the role of the designated safeguarding lead (DSL)
- The early help process (sometimes known as the common assessment framework) and their role in it, including identifying emerging problems, liaising with the DSL, and sharing information with other professionals to support early identification and assessment
- The process for making referrals to local authority children's social care and for statutory assessments that may follow a referral, including the role they might be expected to play

- What to do if they identify a safeguarding issue or a child tells them they are being abused or neglected, including specific issues such as FGM, and how to maintain an appropriate level of confidentiality while liaising with relevant professionals
- The signs of different types of abuse and neglect, as well as specific safeguarding issues, such as child sexual exploitation (CSE), indicators of being at risk from or involved with serious violent crime, FGM and radicalisation
- All staff will be made aware of students whose data and/or image cannot be shared due to safeguarding concerns.

Section 12 and appendix 4 of this policy outlines in more detail how staff are supported to do this.

5.2 The designated safeguarding lead (DSL)

Our DSL is Claire Richardson Assistant Headteacher - Engagement and Wellbeing. The DSL takes lead responsibility for child protection and wider safeguarding.

During term time, the DSL will be available during school hours for staff to discuss any safeguarding concerns.

When the DSL is absent, Chris Byrne, Support Zone Leader and Rachel Allan, SENCo – will act as cover.

If the DSL, Claire Richardson Assistant Headteacher - Engagement and Wellbeing Rachel Allan, SENCo and Chris Byrne, Support Zone Leader are not available, the Headteacher will act as cover (for example, during out-of-hours/out-of-term activities).

The DSL will be given the time, funding, training, resources and support to:

- Provide advice and support to other staff on child welfare and child protection matters
- Take part in strategy discussions and inter-agency meetings and/or support other staff to do so
- Contribute to the assessment of children
- Refer suspected cases, as appropriate, to the relevant body (local authority children's social care, Channel programme, Disclosure and Barring Service, and/or police), and support staff who make such referrals directly

The DSL will also keep the headteacher informed of any issues, and liaise with local authority case managers and designated officers for child protection concerns as appropriate.

The full responsibilities of the DSL are set out in their job description.

5.3 The governing body

The governing body will approve this policy at each review, and hold the headteacher to account for its implementation.

The governing body will appoint a link governor to monitor the effectiveness of this policy in conjunction with the full governing body. This is always a different person from the DSL.

The chair of governors will act as the 'case manager' in the event that an allegation of abuse is made against the headteacher, where appropriate (see appendix 3).

All governors will read Keeping Children Safe in Education

5.4 The headteacher

The headteacher is responsible for the implementation of this policy, including:

- Ensuring that staff (including temporary staff) and volunteers are informed of this policy as part of their induction
- Communicating this policy to parents when their child joins the school and via the school website
- Ensuring that the DSL has appropriate time, funding, training and resources, and that there is always adequate cover if the DSL is absent
- Ensuring that all staff undertake appropriate safeguarding and child protection training and update this regularly

- Acting as the 'case manager' in the event of an allegation of abuse made against another member of staff or volunteer, where appropriate (see appendix 3)

6. Confidentiality

At Kingsmeadow, we aim to create a school setting in which the wellbeing and protection of our students is paramount. Promoting confidentiality by ensuring an ethos of trust is built between students and all staff, including external agencies, and peer mentors is an essential element.

We work in partnership with parents to promote the safeguarding and wellbeing of all students. Our aim is that students and parents feel they are able to discuss with us personal and family matters, including concerns about safety and welfare, in the knowledge that these will be dealt with sensibility.

Students will be reassured that their best interests will be maintained.

- To ensure our students are given the opportunity to disclose any concerns they have about their personal lives.
- Students need to know that teachers and support staff cannot offer unconditional confidentiality.
- To ensure all staff understand their role, and the processes with regard to confidentiality and/or disclosures by students. If there is a possibility of abuse the Child Protection guidelines will be followed.
- Students will be informed of sources of confidential help e.g. GP, School Nurses, CAMHS, school counsellor.

Any information given to members of staff with regard to a student's personal circumstances will only be given on a 'need to know' basis.

Any information given at staff meetings or briefings should be kept confidential within the staff group unless advised otherwise.

Personal information should never be discussed with or within the hearing of other students or their parents, nor should it be left where other students or their parents can access it.

In some circumstances staff may have access to or be given highly sensitive or private information. These details must be kept confidential at all times.

Any written information contained in the personal file of students which is from time to time shared with staff, should not be discussed with others unless there is a legitimate reason.

Students should be discouraged from making confidential disclosures in a public forum.

If as a member of staff you have any concerns about any aspect of a student, you must pass these concerns to the student's Pastoral Support Team or the DSL.

If you are able to discuss your concerns or the student's disclosures, you must ensure that the student is aware that you cannot offer unconditional confidentiality.

You must reassure the student that if confidentiality has to be broken, they will be supported appropriately.

If, as a classroom teacher, you are concerned about a child you should discuss your concerns with the DSL or, in their absence, an alternative other as listed above.

Health professionals such as school health advisors and counsellors can give confidential medical advice to students provided they are competent to do so and follow the Fraser Guidelines (guidelines for doctors and other health professionals on giving medical advice to under 16s). The needs of the student are paramount and health professionals will not insist that a student's parents

or carers are informed about any advice or treatment they give. Health professionals will always operate within Child Protection Guidelines.

Students can access the support of health professionals through appointments which can be made discreetly through the pastoral support team or by self-referral through the 'drop in' system. Students can access information, advice and treatment through the health drop in service. These services are confidential between the health professional and individual student.

Students can also refer any concerns, worries or anxieties via the school's 'Worry Wall' located on the school's intranet. These concerns are posted directly to the school's DSL who will use this information to intervene appropriately with the student and with any relevant agencies.

Individual student interviews with staff and peer mentors:

Any individual student interviews should be carried out in an environment which is safe for the student and the staff member or peer mentor:-

- Doors should not be locked.
- The room should be visible to other staff.

A report of the meeting should be logged with the appropriate Pastoral Team:-

- a) Trigger for meeting.
- b) Cause for concern.
- c) Main points of the meeting.
- d) Actions from the meeting.
- e) People present at the meeting.

The needs of the student are paramount; their best interests will be maintained.

You must ensure that the student understands that unconditional confidentiality cannot be offered.

You must ensure that the student understands that if confidentiality has to be broken, they will be informed first and supported as appropriate.

If you suspect that there is any possibility of abuse, you must report those concerns to the DSL.

The headteacher and governing body will monitor the frequency of incidents occurring whereby confidential information is handled without parental knowledge.

If these incidents occur frequently, the headteacher and governing body will analyse the nature of these incidents and ensure they are addressed through modifications to school policy.

7. Recognising abuse and taking action

Staff, volunteers and governors must follow the procedures set out below in the event of a safeguarding issue.

7.1 If a child is suffering or likely to suffer harm, or in immediate danger

Make a referral to children's social care and/or the police **immediately**, if you believe a child is suffering or likely to suffer harm, or in immediate danger. **Anyone can make a referral.**

Tell the DSL (see section 5.2) as soon as possible if you make a referral directly.

<https://www.gov.uk/report-child-abuse-to-local-council>

7.2 If a child makes a disclosure to you

If a child discloses a safeguarding issue to you, you should:

- Listen to and believe them. Allow them time to talk freely and do not ask leading questions
- Stay calm and do not show that you are shocked or upset

- Tell the child they have done the right thing in telling you. Do not tell them they should have told you sooner
- Explain what will happen next and that you will have to pass this information on. Do not promise to keep it a secret
- Write up your conversation as soon as possible in the child's own words. Stick to the facts, and do not put your own judgement on it
- Sign and date the write-up and pass it on to the DSL. Alternatively, if appropriate, make a referral to children's social care and/or the police directly (see 7.1), and tell the DSL as soon as possible that you have done so

7.3 If you discover that FGM has taken place or a student is at risk of FGM

The Department for Education's Keeping Children Safe in Education explains that FGM comprises "all procedures involving partial or total removal of the external female genitalia, or other injury to the female genital organs".

FGM is illegal in the UK and a form of child abuse with long-lasting, harmful consequences. It is also known as 'female genital cutting', 'circumcision' or 'initiation'.

Possible indicators that a student has already been subjected to FGM, and factors that suggest a student may be at risk, are set out in appendix 4.

Any teacher who discovers that an act of FGM appears to have been carried out on a **student under 18** must immediately report this to the police, personally. This is a statutory duty, and teachers will face disciplinary sanctions for failing to meet it.

The duty above does not apply in cases where a student is *at risk* of FGM or FGM is suspected but is not known to have been carried out. Staff should not examine students.

Any other member of staff who discovers that an act of FGM appears to have been carried out on a **student under 18** must speak to the DSL and follow our local safeguarding procedures.

Any member of staff who suspects a student is *at risk* of FGM or discovers that a **student age 18 or over** appears to have been a victim of FGM, must speak to the DSL and follow our local safeguarding procedures.

7.4 If you have concerns about a child (as opposed to believing a child is suffering or likely to suffer harm, or in immediate danger)

Figure 1 illustrates the procedure to follow if you have concerns about a child's welfare and the child is not in immediate danger.

Where possible, speak to the DSL first to agree a course of action. Alternatively, make a referral to local authority children's social care directly (see 'Referral' below).

You can also contact the charity NSPCC on 0808 800 5000 if you need advice on the appropriate action.

Early help

If early help is appropriate, the DSL will support you in liaising with other agencies and setting up an inter-agency assessment as appropriate.

The DSL will keep the case under constant review and the school will consider a referral to local authority children's social care if the situation does not seem to be improving. Timelines of interventions will be monitored and reviewed.

Referral

If it is appropriate to refer the case to local authority children's social care or the police, the DSL will make the referral or support you to do so.

If you make a referral directly (see section 7.1), you must tell the DSL as soon as possible.

The local authority will make a decision within 1 working day of a referral about what course of action to take and will let the person who made the referral know the outcome. The DSL or person who made the referral must follow up with the local authority if this information is not made available, and ensure outcomes are properly recorded.

If the child's situation does not seem to be improving after the referral, the DSL or person who made the referral must contact the local authority and make sure the case is reconsidered to ensure the concerns have been addressed and the child's situation improves.

7.5 If you have concerns about extremism

If a child is not suffering or likely to suffer harm, or in immediate danger, where possible, speak to the DSL first to agree a course of action. Alternatively, make a referral to local authority children's social care directly if appropriate (see 'Referral' above).

Where there is a concern, the DSL will consider the level of risk and decide which agency to make a referral to. This could include [Channel](#), the government's programme for identifying and supporting individuals at risk of being drawn into terrorism, or the local authority children's social care team.

The Department for Education also has a dedicated telephone helpline, 020 7340 7264, that school staff and governors can call to raise concerns about extremism with respect to a student. You can also email counter.extremism@education.gov.uk. Note that this is not for use in emergency situations.

In an emergency, call 999 or the confidential anti-terrorist hotline on 0800 789 321 if you:

- Think someone is in immediate danger
- Think someone may be planning to travel to join an extremist group
- See or hear something that may be terrorist-related

7.6 Concerns about a staff member or volunteer

If you have concerns about a member of staff or volunteer, speak to the headteacher. If you have concerns about the headteacher, speak to the chair of governors.

You can also discuss any concerns about any staff member or volunteer with the DSL.

The headteacher/chair of governors/DSL will then follow the procedures set out in appendix 3, if appropriate.

Figure 1: procedure if you have concerns about a child's welfare (no immediate danger)

7.7 Allegations of abuse made against other students

We recognise that children are capable of abusing their peers. Abuse will never be tolerated or passed off as “banter” or “part of growing up”.

We also recognise the gendered nature of peer-on-peer abuse (i.e that it is more likely that girls will be victims and boys perpetrators). However, all peer-on-peer abuse is unacceptable and will be taken seriously.

Most cases of students hurting other students will be dealt with under our school’s behaviour policy, but this child protection and safeguarding policy will apply to any allegations that raise safeguarding concerns. This might include where the alleged behaviour:

- Is serious, and potentially a criminal offence
- Could put students in the school at risk
- Is violent
- Involves students being forced to use drugs or alcohol
- Involves sexual exploitation, sexual abuse or sexual harassment, such as indecent exposure, sexual assault, upskirting or sexually inappropriate pictures or videos (including sexting)

If a student makes an allegation of abuse against another student:

- You must tell the DSL and record the allegation, but do not investigate it
- The DSL will contact the local authority children’s social care team and follow its advice, as well as the police if the allegation involves a potential criminal offence
- The DSL will put a risk assessment and support plan into place for all children involved – both the victim(s) and the child(ren) against whom the allegation has been made – with a named person they can talk to if needed
- The DSL will contact the children and adolescent mental health services (CAMHS), if appropriate

We will minimise the risk of peer-on-peer abuse by:

- Challenging any form of derogatory or sexualised language or behaviour, including requesting or sending sexual images
- Being vigilant to issues that particularly affect different genders – for example, sexualised or aggressive touching or grabbing towards female students, and initiation or hazing type violence with respect to boys
- Ensuring our curriculum helps to educate students about appropriate behaviour and consent
- Ensuring students know they can talk to staff confidentially (see section 6. Confidentiality above)
- Ensuring staff are trained to understand that a student harming a peer could be a sign that the child is being abused themselves, and that this would fall under the scope of this policy

7.8 Sexting

Your responsibilities when responding to an incident:

If you are made aware of an incident involving sexting, you must report it to the DSL immediately.

You must **not**:

- View, download or share the imagery yourself, or ask a pupil to share or download it. If you have already viewed the imagery by accident, you must report this to the DSL
- Delete the imagery or ask the pupil to delete it
- Ask the pupil(s) who are involved in the incident to disclose information regarding the imagery (DSL will do this)
- Share information about the incident with other members of staff, the pupil(s) it involves or their, or other, parents and/or carers
- Say or do anything to blame or shame any young people involved

You should explain that you need to report the incident, and reassure the pupil(s) that they will receive support and help from the DSL.

Initial review meeting

Following a report of an incident, the DSL will meet with appropriate school staff. This meeting will consider the initial evidence and aim to determine:

- Whether there is an immediate risk to pupil(s)
- If a referral needs to be made to the police and/or children's social care
- If it is necessary to view the imagery in order to safeguard the young person
- Whether the imagery has been shared and via what services and/or platforms
- If there is a need to contact another school or college

The DSL will make an immediate referral to police and/or children's social care if:

- The incident involves an adult
- There is reason to believe that a young person has been coerced, blackmailed or groomed, or if there are concerns about their capacity to consent
- The imagery involves sexual acts and any pupil in the imagery is under 13
- What the DSL knows about the imagery suggests the content depicts sexual acts which are unusual for the young person's development stage, or are violent
- The DSL has reason to believe a student is at immediate risk of harm owing to the sharing of the imagery

Informing parents

The DSL will inform parents at an early stage and keep them involved in the process

Referring to the police

If it is necessary to refer an incident to the police, this will be done through local neighbourhood police dialling 101.

Recording incidents

All sexting incidents and the decisions made in responding to them will be recorded.

Curriculum coverage

Students are taught about the issues surrounding sexting as part of our PSHE and online safety education.

8. Notifying parents

Where appropriate, we will discuss any concerns about a child with the child's parents. The DSL will normally do this in the event of a suspicion or disclosure.

Other staff will only talk to parents about any such concerns following consultation with the DSL.

If we believe that notifying the parents would increase the risk to the child, we will discuss this with the local authority children's social care team before doing so.

In the case of allegations of abuse made against other children, we will normally notify the parents of all the children involved.

9. Pupils with special educational needs and disabilities

We recognise that pupils with special educational needs (SEN) and disabilities can face additional safeguarding challenges.

We offer pastoral support for pupils with SEN and disabilities.

10. Mobile phones and cameras

Staff will ensure that they are aware of the current school online safety policy and procedures. Staff must rigorously monitor student internet and computer use in line with the policy. This includes the use of personal technology such as cameras, phones and other gadgets on the school site.

Staff will ensure that any photographs taken of students (during learning activities) on a personal device (digital camera, tablet, mobile phone) should be uploaded to the school network/school Google Drive account as soon as possible and should be deleted from the device, removable storage (SD card) and any linked personal cloud storage. .

Staff should ensure that any personal mobile device in their possession is used discreetly when in school and only when necessary.

For a full and detailed outline of the use of school networks, internet, social media and personal devices please see the Online Safety Policy

11. Complaints and concerns about school safeguarding practices

11.1 Complaints against staff

Complaints against staff that are likely to require a child protection investigation will be handled in accordance with our procedures for dealing with allegations of abuse made against staff (see appendix 3).

11.2 Other complaints

All other complaints will be dealt with through the school's complaints procedures.

11.3 Whistle-blowing

Whistleblowing is the disclosing of a concern within the workplace that has come to the attention of an employee during the course of their work, about a danger, risk, malpractice or wrongdoing which affects others and is in the public interest.

The types of practices or behaviours that the school considers should be dealt with by this policy include criminal activity; fraud, corruption and bribery; negligence; health and safety issues concerning the workplace that puts the safety of workers or visitors or the public at risk; failure to comply with legal or professional obligations, or regulatory requirements; risks to the environment; miscarriages of justice; the mismanagement of or unauthorised use of public funds or other resources; the deliberate concealment of any of the above.

Employees are often the first to realise that there may be something seriously wrong within the school. However, they may not express their concerns because they feel that speaking up would be disloyal to their colleagues or to the school, or they may fear harassment or victimisation. In these circumstances, employees may feel that it is easier to ignore the concern rather than report what may be a suspicion of unacceptable behaviour or malpractice.

It is in everyone's best interest to ensure that employees have the confidence that any concerns disclosed are dealt with appropriately. Any concern that is raised will be dealt with appropriately, following the school Whistleblowing Policy and Procedure. Please refer to the Whistleblowing Policy and Procedure.

12. Record-keeping

All safeguarding concerns, discussions, decisions made and the reasons for those decisions, must be recorded in writing. If you are in any doubt about whether to record something, discuss it with the DSL.

Non-confidential records will be easily accessible and available. Confidential information and records will be held securely and only available to those who have a right or professional need to see them.

Safeguarding records relating to individual children will be retained for a reasonable period of time after they have left the school.

In addition:

- Appendix 2 sets out our policy on record-keeping specifically with respect to recruitment and pre-employment checks
- Appendix 4 sets out our policy on record-keeping with respect to allegations of abuse made against staff

13. Training

13.1 All staff

All staff members will undertake safeguarding and child protection training at induction, including on whistle-blowing procedures, to ensure they understand the school's safeguarding systems and their responsibilities, and can identify signs of possible abuse or neglect. This training will be regularly updated and will be in line with advice from our local safeguarding children board.

All staff will have training on the government's anti-radicalisation strategy, Prevent, to enable them to identify children at risk of being drawn into terrorism and to challenge extremist ideas.

Staff will also receive regular safeguarding and child protection updates (for example, through emails, e-bulletins and staff meetings) as required, but at least annually.

Volunteers will receive appropriate training, if applicable.

13.2 The DSL and deputies

The DSL and deputies will undertake child protection and safeguarding training at least every 2 years.

In addition, they will update their knowledge and skills at regular intervals and at least annually (for example, through e-bulletins, meeting other DSLs, or taking time to read and digest safeguarding developments).

They will also undertake Prevent awareness training.

13.3 Governors

All governors receive training about safeguarding, to make sure they have the knowledge and information needed to perform their functions and understand their responsibilities.

13.4 Recruitment – interview/appointment panels

At least one person on any interview/appointment panel for a post at the school will have undertaken safer recruitment training. This will cover, as a minimum, the contents of the Department for Education's statutory guidance, Keeping Children Safe in Education, and be in line with local safeguarding procedures.

14. Monitoring arrangements

This policy will be reviewed **annually** by Claire Richardson Director of Behaviour and Engagement. At every review, it will be approved by the full governing board.

15. Links with other policies and procedures

This policy links to the following policies and procedures:

- Attitude to Learning and Behaviour
- Staff Code of Conduct
- Complaints
- Health and safety
- Attendance
- Online safety

- Sex and relationship education Policy
- KMS Staff Handbook
- Whistle blowing Policy and Procedure

These appendices are based on the Department for Education's statutory guidance, Keeping Children Safe in Education.

Appendix 1: types of abuse

Abuse, including neglect, and safeguarding issues are rarely standalone events that can be covered by one definition or label. In most cases, multiple issues will overlap.

Physical abuse may involve hitting, shaking, throwing, poisoning, burning or scalding, drowning, suffocating or otherwise causing physical harm to a child. Physical harm may also be caused when a parent or carer fabricates the symptoms of, or deliberately induces, illness in a child.

Emotional abuse is the persistent emotional maltreatment of a child such as to cause severe and adverse effects on the child's emotional development. Some level of emotional abuse is involved in all types of maltreatment of a child, although it may occur alone.

Emotional abuse may involve:

- Conveying to a child that they are worthless or unloved, inadequate, or valued only insofar as they meet the needs of another person
- Not giving the child opportunities to express their views, deliberately silencing them or 'making fun' of what they say or how they communicate
- Age or developmentally inappropriate expectations being imposed on children. These may include interactions that are beyond a child's developmental capability, as well as overprotection and limitation of exploration and learning, or preventing the child participating in normal social interaction
- Seeing or hearing the ill-treatment of another
- Serious bullying (including cyberbullying), causing children frequently to feel frightened or in danger, or the exploitation or corruption of children

Sexual abuse involves forcing or enticing a child or young person to take part in sexual activities, not necessarily involving a high level of violence, whether or not the child is aware of what is happening. The activities may involve:

- Physical contact, including assault by penetration (for example rape or oral sex) or non-penetrative acts such as masturbation, kissing, rubbing and touching outside of clothing
- Non-contact activities, such as involving children in looking at, or in the production of, sexual images, watching sexual activities, encouraging children to behave in sexually inappropriate ways, or grooming a child in preparation for abuse (including via the internet)

Sexual abuse is not solely perpetrated by adult males. Women can also commit acts of sexual abuse, as can other children.

Neglect is the persistent failure to meet a child's basic physical and/or psychological needs, likely to result in the serious impairment of the child's health or development. Neglect may occur during pregnancy as a result of maternal substance abuse.

Once a child is born, neglect may involve a parent or carer failing to:

- Provide adequate food, clothing and shelter (including exclusion from home or abandonment)
- Protect a child from physical and emotional harm or danger
- Ensure adequate supervision (including the use of inadequate care-givers)
- Ensure access to appropriate medical care or treatment

It may also include neglect of, or unresponsiveness to, a child's basic emotional needs.

Appendix 2: safer recruitment and DBS checks – policy and procedures

We will record all information on the checks carried out in the school's single central record (SCR). Copies of these checks, where appropriate, will be held in individuals' personnel files. We follow requirements and best practice in retaining copies of these checks, as set out below.

Appointing new staff

When appointing new staff, we will:

- Verify their identity
- Obtain (via the applicant) an enhanced Disclosure and Barring Service (DBS) certificate, including barred list information for those who will be engaging in regulated activity (see definition below). We will not keep a copy of this for longer than 6 months
- Obtain a separate barred list check if they will start work in regulated activity before the DBS certificate is available
- Verify their mental and physical fitness to carry out their work responsibilities
- Verify their right to work in the UK. We will keep a copy of this verification for the duration of the member of staff's employment and for 2 years afterwards
- Verify their professional qualifications, as appropriate
- Ensure they are not subject to a prohibition order if they are employed to be a teacher
- Carry out further additional checks, as appropriate, on candidates who have lived or worked outside of the UK, including (where relevant) any teacher sanctions or restrictions imposed by a European Economic Area professional regulating authority, and criminal records checks or their equivalent.

Regulated activity means a person who will be:

- Responsible, on a regular basis in a school or college, for teaching, training, instructing, caring for or supervising children
- Carrying out paid, or unsupervised unpaid, work regularly in a school or college where that work provides an opportunity for contact with children
- Engaging in intimate or personal care or overnight activity, even if this happens only once and regardless of whether they are supervised or not

Existing staff

If we have concerns about an existing member of staff's suitability to work with children, we will carry out all the relevant checks as if the individual was a new member of staff. We will also do this if an individual moves from a post that is not regulated activity to one that is.

We will refer to the DBS anyone who has harmed, or poses a risk of harm, to a child or vulnerable adult:

- Where the 'harm test' is satisfied in respect of the individual (i.e. that no action or inaction occurred but the present risk that it could was significant)
- Where the individual has received a caution or conviction for a relevant offence
- If there is reason to believe that the individual has committed a listed relevant offence, under the [Safeguarding Vulnerable Groups Act 2006 \(Prescribed Criteria and Miscellaneous Provisions\) Regulations 2009](#)
- If the individual has been removed from working in regulated activity (paid or unpaid) or would have been removed if they had not left

Agency and third-party staff

We will obtain written notification from any agency or third-party organisation that it has carried out the necessary safer recruitment checks that we would otherwise perform. We will also check that the person presenting themselves for work is the same person on whom the checks have been made.

Contractors

We will ensure that any contractor, or any employee of the contractor, who is to work at the school has had the appropriate level of DBS check. This will be:

- An enhanced DBS check with barred list information for contractors engaging in regulated activity
- An enhanced DBS check, not including barred list information, for all other contractors who are not in regulated activity but whose work provides them with an opportunity for regular contact with children

We will obtain the DBS check for self-employed contractors.

We will not keep copies of such checks for longer than 6 months.

Contractors who have not had any checks will not be allowed to work unsupervised or engage in regulated activity under any circumstances.

We will check the identity of all contractors and their staff on arrival at the school.

Trainee/student teachers

Where applicants for initial teacher training are salaried by us, we will ensure that all necessary checks are carried out.

Where trainee teachers are fee-funded, we will obtain written confirmation from the training provider that necessary checks have been carried out and that the trainee has been judged by the provider to be suitable to work with children.

Volunteers

We will:

- Never leave an unchecked volunteer unsupervised or allow them to work in regulated activity
- Obtain an enhanced DBS check with barred list information for all volunteers who are new to working in regulated activity
- Obtain an enhanced DBS check without barred list information for all volunteers who are not in regulated activity, but who have an opportunity to come into contact with children on a regular basis, for example, supervised volunteers
- Carry out a risk assessment when deciding whether to seek an enhanced DBS check for any volunteers not engaging in regulated activity
-

Governors

All governors will have an enhanced DBS check without barred list information. They will have an enhanced DBS check with barred list information if working in regulated activity.

- Right to work in the UK
- Other checks deemed necessary if they have lived or worked outside the UK

Adults who supervise students on work experience

When organising work experience, we will ensure that policies and procedures are in place to protect children from harm.

We will also consider whether it is necessary for barred list checks to be carried out on the individuals who supervise a student under 16 on work experience. This will depend on the specific circumstances of the work experience, including the nature of the supervision, the frequency of the activity being supervised, and whether the work is regulated activity.

students staying with host families

Where the school makes arrangements for students to be provided with care and accommodation by a host family to which they are not related (for example, during a foreign exchange visit), we will request enhanced DBS checks with barred list information on those people.

Where the school is organising such hosting arrangements overseas and host families cannot be checked in the same way, we will work with our partner schools abroad to ensure that similar assurances are undertaken prior to the visit.

Appendix 3: allegations of abuse made against staff

This section of this policy applies to all cases in which it is alleged that a current member of staff or volunteer has:

- Behaved in a way that has harmed a child, or may have harmed a child, or
- Possibly committed a criminal offence against or related to a child, or
- Behaved towards a child or children in a way that indicates he or she would pose a risk of harm to children

It applies regardless of whether the alleged abuse took place in the school. Allegations against a teacher who is no longer teaching and historical allegations of abuse will be referred to the police.

We will deal with any allegation of abuse against a member of staff or volunteer very quickly, in a fair and consistent way that provides effective child protection while also supporting the individual who is the subject of the allegation.

Our procedures for dealing with allegations will be applied with common sense and judgement.

Suspension

Suspension will not be the default position, and will only be considered in cases where there is reason to suspect that a child or other children is/are at risk of harm, or the case is so serious that it might be grounds for dismissal. In such cases, we will only suspend an individual if we have considered all other options available and there is no reasonable alternative.

Based on an assessment of risk, we will consider alternatives such as:

- Redeployment within the school so that the individual does not have direct contact with the child or children concerned
- Providing an assistant to be present when the individual has contact with children
- Redeploying the individual to alternative work in the school so that they do not have unsupervised access to children
- Moving the child or children to classes where they will not come into contact with the individual, making it clear that this is not a punishment and parents have been consulted
- Temporarily redeploying the individual to another role in a different location, for example to an alternative school or other work for the local authority

Definitions for outcomes of allegation investigations

- **Substantiated:** there is sufficient evidence to prove the allegation
- **Malicious:** there is sufficient evidence to disprove the allegation and there has been a deliberate act to deceive
- **False:** there is sufficient evidence to disprove the allegation
- **Unsubstantiated:** there is insufficient evidence to either prove or disprove the allegation (this does not imply guilt or innocence)
- **Unfounded:** to reflect cases where there is no evidence or proper basis which supports the allegation being made

Procedure for dealing with allegations

In the event of an allegation that meets the criteria above, the headteacher (or chair of governors where the headteacher is the subject of the allegation) – the ‘case manager’ – will take the following steps:

- Immediately discuss the allegation with the designated officer at the local authority. This is to consider the nature, content and context of the allegation and agree a course of action, including whether further enquiries are necessary to enable a decision on how to proceed, and whether it is necessary to involve the police and/or children’s social care services. (The case manager may, on occasion, consider it necessary to involve the police *before* consulting the designated officer – for example, if the accused individual is deemed to be an immediate risk to children or there is evidence of a possible criminal offence. In such cases, the case manager will notify the designated officer as soon as practicably possible after contacting the police)

- Inform the accused individual of the concerns or allegations and likely course of action as soon as possible after speaking to the designated officer (and the police or children's social care services, where necessary). Where the police and/or children's social care services are involved, the case manager will only share such information with the individual as has been agreed with those agencies
- Where appropriate (in the circumstances described above), carefully consider whether suspension of the individual from contact with children at the school is justified or whether alternative arrangements such as those outlined above can be put in place. Advice will be sought from the designated officer, police and/or children's social care services, as appropriate
- **If immediate suspension is considered necessary**, agree and record the rationale for this with the designated officer. The record will include information about the alternatives to suspension that have been considered, and why they were rejected. Written confirmation of the suspension will be provided to the individual facing the allegation or concern within 1 working day, and the individual will be given a named contact at the school and their contact details
- **If it is decided that no further action is to be taken** in regard to the subject of the allegation or concern, record this decision and the justification for it and agree with the designated officer what information should be put in writing to the individual and by whom, as well as what action should follow both in respect of the individual and those who made the initial allegation
- **If it is decided that further action is needed**, take steps as agreed with the designated officer to initiate the appropriate action in school and/or liaise with the police and/or children's social care services as appropriate
- Provide effective support for the individual facing the allegation or concern, including appointing a named representative to keep them informed of the progress of the case and consider what other support is appropriate.
- Inform the parents or carers of the child/children involved about the allegation as soon as possible if they do not already know (following agreement with children's social care services and/or the police, if applicable). The case manager will also inform the parents or carers of the requirement to maintain confidentiality about any allegations made against teachers (where this applies) while investigations are ongoing. Any parent or carer who wishes to have the confidentiality restrictions removed in respect of a teacher will be advised to seek legal advice
- Keep the parents or carers of the child/children involved informed of the progress of the case and the outcome, where there is not a criminal prosecution, including the outcome of any disciplinary process (in confidence)
- Make a referral to the DBS where it is thought that the individual facing the allegation or concern has engaged in conduct that harmed or is likely to harm a child, or if the individual otherwise poses a risk of harm to a child

If the school is made aware that the secretary of state has made an interim prohibition order in respect of an individual, we will immediately suspend that individual from teaching, pending the findings of the investigation by the National College for Teaching and Leadership.

Where the police are involved, wherever possible the local authority will ask the police at the start of the investigation to obtain consent from the individuals involved to share their statements and evidence for use in the school's disciplinary process, should this be required at a later point.

Timescales

- Any cases where it is clear immediately that the allegation is unsubstantiated or malicious will be resolved within 1 week
- If the nature of an allegation does not require formal disciplinary action, we will institute appropriate action within 3 working days
- If a disciplinary hearing is required and can be held without further investigation, we will hold this within 15 working days

Specific actions

Action following a criminal investigation or prosecution

The case manager will discuss with the local authority's designated officer whether any further action, including disciplinary action, is appropriate and, if so, how to proceed, taking into account information provided by the police and/or children's social care services.

Conclusion of a case where the allegation is substantiated

If the allegation is substantiated and the individual is dismissed or the school ceases to use their services, or the individual resigns or otherwise ceases to provide their services, the case manager and the school's personnel adviser will discuss with the designated officer whether to make a referral to the DBS for consideration of whether inclusion on the barred lists is required.

If the individual concerned is a member of teaching staff, the case manager and personnel adviser will discuss with the designated officer whether to refer the matter to the NCTL to consider prohibiting the individual from teaching.

Individuals returning to work after suspension

If it is decided on the conclusion of a case that an individual who has been suspended can return to work, the case manager will consider how best to facilitate this.

The case manager will also consider how best to manage the individual's contact with the child or children who made the allegation, if they are still attending the school.

Unsubstantiated or malicious allegations

If an allegation is shown to be deliberately invented, or malicious, the headteacher, or other appropriate person in the case of an allegation against the headteacher, will consider whether any disciplinary action is appropriate against the student(s) who made it, or whether the police should be asked to consider whether action against those who made the allegation might be appropriate, even if they are not a student.

Confidentiality

The school will make every effort to maintain confidentiality and guard against unwanted publicity while an allegation is being investigated or considered.

The case manager will take advice from the local authority's designated officer, police and children's social care services, as appropriate, to agree:

- Who needs to know about the allegation and what information can be shared
- How to manage speculation, leaks and gossip, including how to make parents or carers of a child/children involved aware of their obligations with respect to confidentiality
- What, if any, information can be reasonably given to the wider community to reduce speculation
- How to manage press interest if, and when, it arises

Record-keeping

The case manager will maintain clear records about any case where the allegation or concern meets the criteria above and store them on the individual's confidential personnel file for the duration of the case. Such records will include:

- A clear and comprehensive summary of the allegation
- Details of how the allegation was followed up and resolved
- Notes of any action taken and decisions reached (and justification for these, as stated above)

If an allegation or concern is not found to have been malicious, the school will retain the records of the case on the individual's confidential personnel file, and provide a copy to the individual. We will retain these records at least until the individual has reached normal pension age, or for 10 years from the date of the allegation if that is longer.

The records of any allegation that is found to be malicious will be deleted from the individual's personnel file.

References

When providing employer references, we will not refer to any allegation that has been proven to be false, unsubstantiated or malicious, or any history of allegations where all such allegations have been proven to be false, unsubstantiated or malicious.

Learning lessons

After any cases where the allegations are *substantiated*, we will review the circumstances of the case with the local authority's designated officer to determine whether there are any improvements that we can make to the school's procedures or practice to help prevent similar events in the future.

This will include consideration of (as applicable):

- Issues arising from the decision to suspend the member of staff
- The duration of the suspension
- Whether or not the suspension was justified
- The use of suspension when the individual is subsequently reinstated. We will consider how future investigations of a similar nature could be carried out without suspending the individual

Appendix 4: specific safeguarding issues

Children missing from education

A child going missing from education is a potential indicator of abuse or neglect, and such children are at risk of being victims of harm, exploitation or radicalisation.

There are many circumstances where a child may become missing from education, but some children are particularly at risk. These include children who:

- Are at risk of harm or neglect
- Come from Gypsy, Roma, or Traveller families
- Come from the families of service personnel
- Go missing or run away from home or care
- Are supervised by the youth justice system
- Cease to attend a school
- Come from new migrant families

We will follow our procedures for unauthorised absence and for dealing with children who go missing from education, particularly on repeat occasions, to help identify the risk of abuse and neglect, including sexual exploitation, and to help prevent the risks of going missing in future. This includes informing the local authority if a child leaves the school without a new school being named, and adhering to requirements with respect to sharing information with the local authority, when applicable, when removing a child's name from the admission register at non-standard transition points.

Staff will be trained in signs to look out for and the individual triggers to be aware of when considering the risks of potential safeguarding concerns which may be related to being missing, such as travelling to conflict zones, FGM and forced marriage.

If a staff member suspects that a child is suffering from harm or neglect, we will follow local child protection procedures, including with respect to making reasonable enquiries. We will make an immediate referral to the local authority children's social care team, and the police, if the child is in immediate danger or at risk of harm.

Child sexual exploitation

Child sexual exploitation (CSE) is a form of sexual abuse where children are sexually exploited for money, power or status.

This can involve violent, humiliating and degrading sexual assaults, but does not always involve physical contact and can happen online. For example, young people may be persuaded or forced to share sexually explicit images of themselves, have sexual conversations by text, or take part in sexual activities using a webcam.

Children or young people who are being sexually exploited may not understand that they are being abused. They often trust their abuser and may be tricked into believing they are in a loving, consensual relationship.

If a member of staff suspects CSE, they will discuss this with the DSL. The DSL will trigger the local safeguarding procedures, including a referral to the local authority's children's social care team and the police, if appropriate.

Indicators of sexual exploitation can include a child:

- Appearing with unexplained gifts or new possessions
- Associating with other young people involved in exploitation
- Having older boyfriends or girlfriends
- Suffering from sexually transmitted infections or becoming pregnant
- Displaying inappropriate sexualised behaviour
- Suffering from changes in emotional wellbeing
- Misusing drugs and/or alcohol
- Going missing for periods of time, or regularly coming home late
- Regularly missing school or education, or not taking part in education

FGM

The DSL will make sure that staff have access to appropriate training to equip them to be alert to children affected by FGM or at risk of FGM.

Section 7.3 of this policy sets out the procedures to be followed if a staff member discovers that an act of FGM appears to have been carried out or suspects that a student is at risk of FGM.

Indicators that FGM has already occurred include:

- A student confiding in a professional that FGM has taken place
- A mother/family member disclosing that FGM has been carried out
- A family/student already being known to social services in relation to other safeguarding issues
- A girl:
 - o Having difficulty walking, sitting or standing, or looking uncomfortable
 - o Finding it hard to sit still for long periods of time (where this was not a problem previously)
 - o Spending longer than normal in the bathroom or toilet due to difficulties urinating
 - o Having frequent urinary, menstrual or stomach problems
 - o Avoiding physical exercise or missing PE
 - o Being repeatedly absent from school, or absent for a prolonged period
 - o Demonstrating increased emotional and psychological needs – for example, withdrawal or depression, or significant change in behaviour
 - o Being reluctant to undergo any medical examinations
 - o Asking for help, but not being explicit about the problem
 - o Talking about pain or discomfort between her legs

Potential signs that a student may be at risk of FGM include:

- The girl's family having a history of practising FGM (this is the biggest risk factor to consider)
- FGM being known to be practised in the girl's community or country of origin
- A parent or family member expressing concern that FGM may be carried out
- A family not engaging with professionals (health, education or other) or already being known to social care in relation to other safeguarding issues

- A girl:
 - Having a mother, older sibling or cousin who has undergone FGM
 - Having limited level of integration within UK society
 - Confiding to a professional that she is to have a “special procedure” or to attend a special occasion to “become a woman”
 - Talking about a long holiday to her country of origin or another country where the practice is prevalent, or parents stating that they or a relative will take the girl out of the country for a prolonged period
 - Requesting help from a teacher or another adult because she is aware or suspects that she is at immediate risk of FGM
 - Talking about FGM in conversation – for example, a girl may tell other children about it (although it is important to take into account the context of the discussion)
 - Being unexpectedly absent from school
 - Having sections missing from her ‘red book’ (child health record) and/or attending a travel clinic or equivalent for vaccinations/anti-malarial medication

The above indicators and risk factors are not intended to be exhaustive.

Forced marriage

Forcing a person into marriage is a crime. A forced marriage is one entered into without the full and free consent of one or both parties and where violence, threats, or any other form of coercion is used to cause a person to enter into a marriage. Threats can be physical or emotional and psychological.

Staff will receive training around forced marriage and the presenting symptoms. We are aware of the ‘one chance’ rule, i.e. we may only have one chance to speak to the potential victim and only one chance to save them.

If a member of staff suspects that a student is being forced into marriage, they will speak to the student about their concerns in a secure and private place. They will then report this to the DSL.

The DSL will:

- Speak to the student about the concerns in a secure and private place
- Activate the local safeguarding procedures and refer the case to the local authority’s designated officer
- Seek advice from the Forced Marriage Unit on 020 7008 0151 or fmufco.gov.uk
- Refer the student to an education welfare officer, pastoral tutor, learning mentor, or school counsellor, as appropriate

Preventing radicalisation

Radicalisation refers to the process by which a person comes to support terrorism and forms of extremism. Extremism is vocal or active opposition to fundamental British values, such as democracy, the rule of law, individual liberty, and mutual respect and tolerance of different faiths and beliefs.

Schools have a duty to prevent children from being drawn into terrorism. The DSL will undertake Prevent awareness training and make sure that staff have access to appropriate training to equip them to identify children at risk.

We will assess the risk of children in our school being drawn into terrorism. This assessment will be based on an understanding of the potential risk in our local area, in collaboration with our local safeguarding children board and local police force.

We will ensure that suitable internet filtering is in place, and equip our students to stay safe online at school and at home.

There is no single way of identifying an individual who is likely to be susceptible to an extremist ideology. Radicalisation can occur quickly or over a long period.

Staff will be alert to changes in students’ behaviour.

The government website [Educate Against Hate](#) and charity [NSPCC](#) say that signs that a student is being radicalised can include:

- Refusal to engage with, or becoming abusive to, peers who are different from themselves
- Becoming susceptible to conspiracy theories and feelings of persecution
- Changes in friendship groups and appearance
- Rejecting activities they used to enjoy
- Converting to a new religion
- Isolating themselves from family and friends
- Talking as if from a scripted speech
- An unwillingness or inability to discuss their views
- A sudden disrespectful attitude towards others
- Increased levels of anger
- Increased secretiveness, especially around internet use
- Expressions of sympathy for extremist ideologies and groups, or justification of their actions
- Accessing extremist material online, including on Facebook or Twitter
- Possessing extremist literature
- Being in contact with extremist recruiters and joining, or seeking to join, extremist organisations

Children who are at risk of radicalisation may have low self-esteem, or be victims of bullying or discrimination. It is important to note that these signs can also be part of normal teenage behaviour – staff should have confidence in their instincts and seek advice if something feels wrong.

If staff are concerned about a student, they will follow our procedures set out in section 7.5 of this policy, including discussing their concerns with the DSL.

Staff should **always** take action if they are worried.

Checking the identity and suitability of visitors

If the visitor is unknown to the setting, we will check their credentials and reason for visiting before allowing them to enter Kingsmeadow. Visitors should be ready to produce identification.

Visitors are expected to sign the visitors' book and wear a visitor's badge. All visitors will be required to verify their identity to the satisfaction of staff.

All visitors to our setting, including visiting speakers, will be accompanied by a member of staff at all times. We will not invite into the school any speaker who is known to disseminate extremist views, and will carry out appropriate checks to ensure that any individual or organisation using school facilities is not seeking to disseminate extremist views or radicalise students or staff.

Non-collection of children

Some students are dropped off and picked up from school on a daily basis. If a child is not collected at the end of the session/day, we will:

- Contact parents carers using the recorded contact details.
- Take the student to their place of residence, as registered.
- Seek advice from LA Social Care team

Missing students

Anyone whose whereabouts cannot be established and where the circumstances are out of character, or the context suggests that the person may be a subject of crime or at risk of harm to themselves or another, is deemed to be missing.

A missing child/young person incident would be prioritised as 'high risk' where:

- The risk posed is immediate and there are substantial grounds for believing that the child/young person is in danger through their own vulnerability; or
- The child/young person may have been the victim of a serious crime; or
- The risk posed is immediate and there are substantial grounds for believing that the public is in danger.
- There are indications that the child/young person has already come to harm (CSE, Grooming, radicalisation etc.)

Our procedures are designed to ensure that a missing child is found and returned to effective supervision as soon as possible.

Once a student is identified as missing by any member of the school staff, the Designated Safeguarding Lead will be informed.

Staff will use professional judgement and risk assess the urgency of the situation to help inform the timeframe required in establishing the students' whereabouts before notifying the Police. Timelines should be on a case by case basis.

The Designated Safeguarding Lead should, together with the class teacher and/or headteacher, assess the child's vulnerability.

School staff will try to locate the student and try to establish their whereabouts.

School staff will contact home and try to contact the student via their mobile telephone, if known.

Notifying the Police

The information required by the Police to assist in locating and returning the student to a safe environment is as follows:

- The students name/s; date of birth; status; (for example looked after child) responsible authority;
- Where and when they went missing;
- Previous missing episodes and where they went;
- Who, if anyone, they went missing with;
- What the child was wearing plus any belongings they had with them such as bags, phone etc; include mobile number.
- Description and recent photo;
- Medical history, if relevant;
- Time and location last seen;
- Circumstances or events around going missing with relevant safeguarding information;
- Details of family, friends and associates;
- Contact details of safeguarding lead if it was after school hours.

Whilst the search is ongoing, the school will continue to liaise with the police and act in accordance with police instructions.

If the child returns before the police have arrived then the Police must be informed and own school procedures need to be followed.

If the child returns to school of their own volition, then the Police must be informed and own school procedures need to be followed.

If the police locate the child and bring them back to the school the Police will conduct the safe and well interview and the school will follow School procedure.

Where a student has a known risk of being missing, a risk assessment for the student will be written and put into place.
