NHS Test and Trace: COVID-19 testing for staff and students

Dear parent or guardian,

We are working to keep our school as safe as possible. You may have heard that testing for those without coronavirus symptoms is beginning across the country using new, quicker COVID-19 tests known as 'lateral flow tests'.

Along with the other protective measures we are taking, these tests will help staff and students to remain in school safely. By testing we will help to stop the virus spread and help to keep our school open as safely as possible. The test is voluntary, but I would encourage everyone to take it.

We will be testing staff and students who want to participate as soon as we are in a position to do so.

If you are happy for your child to be tested, please complete the registration and consent form sent to you via email. If you do not receive this email, please check your junk/spam folder. If you still do not receive the email, please contact the school to ensure we have your correct email address.

Those taking the test will be supervised by trained staff. The 'lateral flow tests' are quick and easy using a swab of your nose and throat. For under 18s, staff can oversee the swab process.

Results (which take around half an hour from testing) will be shared directly with staff and pupils participating. Where participants are under 16, parents or legal guardians will also be informed if positive.

Testing will be offered free of charge.

What if a pupil tests positive?

Participating staff and pupils who test positive will be informed about their results individually. Where participants are under 16, parents or legal guardians will also be notified. Students testing positive will need to take a further 'PCR test' (similar to those done in local and regional testing sites) on the same day (or as soon as possible). Any student receiving a positive result must immediately self-isolate, and book a test by calling 119 (England, Wales and Northern Ireland) or 0300 303 2713 (Scotland) or visiting <https://www.gov.uk/get-coronavirus-test>. If ordering a PCR test it is advisable to choose to visit a drive-through test site if possible, as it is faster than requesting a home test.

During this time while they wait for the PCR result (via text / email) they will need to self-isolate.

If the PCR test returns a positive result you will have to inform school, self-isolate and follow the guidance from NHS Test and Trace.

What happens if the test is negative?

They will be able to stay in school and resume their activities as normal. A pupil will only be told if they test positive on a 'lateral flow' test, so if you do not hear you can assume it was negative. A small number of pupils may need to repeat the test if the first test was invalid or void for some reason.

What if a close contact at school/college tests positive?

A close contact of someone in school who has tested positive for COVID-19 will be able to remain in school if they agree to be tested once a day for 7 days and the test is negative. If they do not want to take the test, they will need to self-isolate as per the national guidelines. This does not apply to household members or close contacts outside of school who will still need to self-isolate. Further details will be provided at the time, but if you would prefer to self-isolate instead of doing daily testing, you can.

What if my child develops symptoms?

This testing programme at school is for people with no symptoms. If your child develops symptoms at any time (such as a high temperature; a new, continuous cough; or a loss or change to their sense of smell or taste) they must immediately self-isolate, and book a test by calling 119 (England, Wales and Northern Ireland) or 0300 303 2713 (Scotland) or visiting <https://www.gov.uk/get-coronavirus-test>.

We will support our staff and pupils throughout, but please contact us if you need further information or have any questions.

Yours faithfully

A handwritten signature in black ink, appearing to read 'D Volpe'.
